

# Snow Fall

At 80" (2m) in height, the Snow Fall is a large side mount or wall-mounted LED display perfect for tall poles and large sized building facades. The Snow Fall features a six point pure white snowflake crested upon three trails that can be specified in 9 different colours, with all trails the same colour, or a different colour for each trail. Inspired by a shooting star, the Snow Fall is a unique winter-themed display that can remain on poles throughout the winter months, providing additional value beyond the traditional holiday season. The Snow Fall is a neutral and versatile display piece that is suitable for a multitude of winter settings.
