

# Star Trail

As a popular variation on the Shooting Star, the Star Trail can equally make all your wishes come true. Most commonly specified as a pure white or yellow star with “tails” in alternating colours, the Star Trail is perfect for settings where a winter theme is coveted, and/or if illumination is desired throughout the winter months into February or even early March. With over 5.5' in height, the Star Trail is well-suited for taller poles, or larger building facades when specified as a wall-mounted. With 9 LED rope light colours to choose from, the Star Trail can be customized in 100s of colour combinations ensuring the display features are as unique as it's setting.

## LED Rope Light Colours

Pure White		Red	
Warm White		Orange
