

The snow is melting, and water levels are rising.
Ensure your community is prepared and safe.

Guardian Lifebuoy Housing

**Water
Safety
Products**

Built with durable Durapol material, this unit is engineered to **withstand extreme temperatures, protecting life-saving devices** from the harmful effects of UV exposure that can compromise their integrity.

Additionally, lifebuoy housings act as a **deterrent to vandals and thieves**, reducing the need for costly and frequent lifebuoy replacements.

Another Product of Interest

B-LINE: Throwing buoy with 30m rope

A **lightweight water rescue device** that boasts a streamlined design which enhances its throwing capabilities. Whether in a vertical or horizontal position, this design allows for **longer and more accurate throws**, significantly improving the likelihood of a successful rescue.
